CONFLICTING REPORTS

OF PROGRESSIVE PLANS Te Have Convention Defer Action Un

Chicago, June 5.—Conflicting re-ports regarding a plan of leaders, headed by George W. Perkins, to have the progressive convention postpone action upon nominations until some tangible result upon a nominee is approached in the republican convention followed today's meeting of the pro-gressive national committee. Many leaders favored the plan of marking time. Mr. Perkins announced tonight that the convention would not nominate "right off the bat" but would probably wait for a time.

On the other hand, former Representative Murdock of Kansas, national

committee chairman, asserted that the committee had reached no agreement withhold action upon nominations

Against these assertions William Al-len White, national committeeman from Kansas, declared the committee had agreed to have the convention postpone consideration of nominations postpone consideration of nominations until Saturday, awaiting republican action. He said a "steering committee" had been named to launch a publicity campaign to boost Colonel Roosavelt among republican delegates and confer with a republican committee lanking to ioint pominations. tee looking to joint nominations

Republican Leaders Willing to Con-

Chicago, June 5.—Representatives of the several candidates for the republican presidential nomination are in a perplaxing predicament tonight. Having fostered sentiment in favor of Justice Hughes until they felt sure Colonel Roosevelt was definitely eliminated, they now fear they cannot control the Hughes movement.

During the day it grew to the proportions of a boom. Effort is being made to concentrate all elements against it and the indications are that the veto of the progressive party, which, of course, means Colonel Roosevelt's disapproval of Hughes, may be sought as a check.

Harmony Desire of Leaders.

Harmony Desire of Leaders.

Harmony above everything else is the desire of the leaders. Without it any nominee would not answer the purpose, because it is recognized that unless the republicans and progressives get together their chance of success at the polis is very slim. To obtain harmony, the republican leaders are willing to concede to Colone! Hoosevelt the veto power in some form. Some of the leaders say he should be willing to select one or two men who would be acceptable to him from the list of candidates in the field. Others think he should suggest men Harmony Desire of Leaders. Others think he should suggest men for consideration by convention leaders and virtually all of the party chiefs are willing to admit that any of the candidates definitely rejected by Colonel Roosevelt could not be nominated.

Impartial observers within the re-publican ranks do not consider that the unexpected growth of the Hughes ing men at Santa Ysabel, Chihuahua, in January and who is said to have directed the movements of the Mexicans at Columbus, expressed no regret. The big clock in the Cuartel was booming it as he faced the firing squad. Lopez smiled and looking directly at the soldiers, said: "In the breast, brothers; in the breast."

All of the shots fired struck in or hear the heart of the bandit. Lopez left letters to his wife and father, urging them to believe he was not a Hushes was the second choice of their expected demand for the nomination of Roosevelt were surprised at its growth. Hughes Sentiment Reaches High Tide.

Hughes Sentiment Reaches High Tide.

With the arrival of hundreds of delegates today the sentiment in favor of Hughes reached high tide and in spite of the concentration upon him of the opposition forces he appears to be far in the lead. Managers of the favorite son candidates have made no headwap to combine against Hughes because he is the second choice of many of the instructed delegates and trading is dangerous. Every attempted transfer, it is feared, would result in spilling some delegates into the Hughes basket. Unless the situation changes very soon, these delegates are allowed to the proposition of the four million votling women in the twelve suffrage states who place equal suffrage before the interests of any political party."

Miss Anna Martin of Remo, Nev., was elected permanent chairman. All thought of getting a pre-convention statement from Justice Hughes was abandoned during the day. The so-called smoking-out processes were unsuccessful. Similar efforts were directed tonight against the Roosevelt people and a demand was made that the colonel either should come here and take part in the councils or place his spokesman in a position where they could answer questions of the so-called allies as to what candidate or candidates would be acceptable to him to defeat Hughes. It was not believed that any of these demands would be met.

Roosevelt's Presence Desired. Many of the Roosevelt adherents themselves believed the colonel should come to Chicago. His presence, they thought, would obviate all danger of the progressive national convention getting beyond control. Strangely enough, the old guard leaders would welcome Colonel Roosevelt at this time, as they would prefer to deal with him directly rather than through representatives and some of tham argued that if he could be induced to come here a union of the republicans Many of the Roosevelt adherents come here a union of the republicans and progressives would be assured.

PRESIDENT AND CABINET DISCUSS NOTE TO CARRANZA

General Carransa's demand that the United States declare its intentions toward Mexico "in the interests of all Latin-America" has aroused considerable discussion in diplomatic circles. Some diplomats do not hesitate to attribute it to the activity of foreign agents at Mexico City, working to offset President Wilson's efforts toward a rioser Pan-American relationship. They argue that the fact that Ameria rioser Pan-American relationship. They argue that the fact that American marines have been employed recently at Nicaragua and the Dominican Republic and that American proops are now in Mexico may have been used by such agents to discount the president's declaration for Pan-American amity. Some even assert that a campaign is on foot to prevent the United States from obtaining permanently the trade with South and Central America and Mexico formerly held in Europe.
